

PRASANTH ANNAM – Senior Full-Stack Software Engineer

+1 786-327-2092 | annam.prasanth.official@gmail.com | <https://www.linkedin.com/in/prasanth-annam/> | Austin, TX

PROFESSIONAL EXPERIENCE

Amazon

Austin, TX

Software Development Engineer II

Aug 2024 - Present

- Architected, owned, and delivered full-stack solutions for Partner Central 3.0, leading the UX and backend integration for a large-scale, ~\$5B program.
- Served as an AI Ambassador, leading agentic AI enablement across the org through seminars, R&D initiatives, and hands-on guidance, resulting in 98% adoption across ~450 engineers within 4 months.
- Independently owned and delivered the Partner Account Matching pilot initiative from concept to launch, a strategic program projected to generate \$3.5B in value over 3 years.
- Architected and delivered the Partner Account Connection experience within AWS Partner Central, leading a 5-member team to enable seamless partner collaboration and business growth across a ~\$1.5B initiative.

Tesla

Austin, TX

Senior Software Developer

Feb 2023 – July 2024

- Led a 5-member team to design and deliver web-based operating system (HROS) services that streamlined employee and HR operational workflows.
- Architected and delivered full-stack applications for employee training, recognition, and profiles used by 300K+ active users and saved \$750K annually by removing the dependency on third-party applications.
- Planned and executed the optimization of 3000+ APIs across 5 different applications to improve the performance by ~30% in Turn-Around-Time.

Intel Corporation - Internship

Miami, FL

Graduate Compilers Intern

May 2022 – Dec 2022

- Conceptualized and developed project Eva to automate 10+ manual tasks in finding bugs and reduced the average testing and discovery effort by 500% (45min-1.5Hr from 4Hrs-5Hrs). Eva found 70+ bugs early in the production.
- Designed an intelligent logging system that reduced per-run log size from 25MB to 10MB while preserving critical compiler diagnostics.

Western Digital

Bangalore IN

Senior Software Development Engineer

Aug 2017 - Jul 2021

- Led an 8-member team to architect and deliver self-service BI and finance platforms (KIOSK, ROIC), replacing proprietary tools and driving \$4M+ in savings through scalable analytics and executive-level decision support.
- Architected Angular-based custom library-driven development for generating charts and other graphics in a large-scale application that reduced the code size by 35% (8.6 MB to 5.4 MB) and improved load times by 40%(6.5 sec to 3.5 sec).
- Designed & architected Data Warehouses to host ~25TB of data generated from testing a range of memory cards & JIRA.

TECHNICAL SKILLS

Full-Stack Engineering: Angular, React, TypeScript, JavaScript, Node.js, Java, Python, C#

Backend & Distributed Systems: REST APIs, Microservices, Event-Driven Systems, Spring Boot, ASP.NET, Express, FastAPI

Data & Storage: SQL & NoSQL Databases, Data Warehousing (25+ TB), Elasticsearch, Kafka, Redis

Cloud & Platform: AWS, Scalable System Design, Performance Optimization

AI & Agentic Development: Cline, Kiro, Q CLI, Cursor; LLMs: Claude (Haiku, Sonnet, Opus)

EDUCATION

Florida International University

M.S. in Computer and Information Science, GPA: 3.97/4

Relevant Courses: Machine Learning, Data Analytics

Miami, FL

Dec 2022

Jawaharlal Nehru Technological University, Kakinada

B Tech. in Computer Science

Andhra Pradesh, IN

May 2015

ACHIEVEMENTS

- **GenAI Hackathon Winner (Amazon):** Built an AI agent that enabled Sales teams to generate tailored migration solutions for new customers adopting AWS.
- **Lead with purpose award (Tesla):** For being proactive in and taking initiative on completing the existing backlog items and improving the overall application's reliability.
- **Platinum, Gold, Silver & bronze High5 awards (WD):** Received these awards on multiple occasions for being a star developer in multiple projects and with a short turn-around time.
- **IBU (Indian Business Unit) GREEN HORN award (Infosys):** Award given for being a dependable resource and taking up critical action items with tight deadlines and for pitching in to help multiple teams in the times of need.
- **President of CSI association in SRKIT (Under Grad):** Computer Society of India association is a prestigious club focused on career, technical and people development skills of university students. I led various clubs like web development, programming, organizing events, etc.
